# *Pei payment module for PrestaShop*
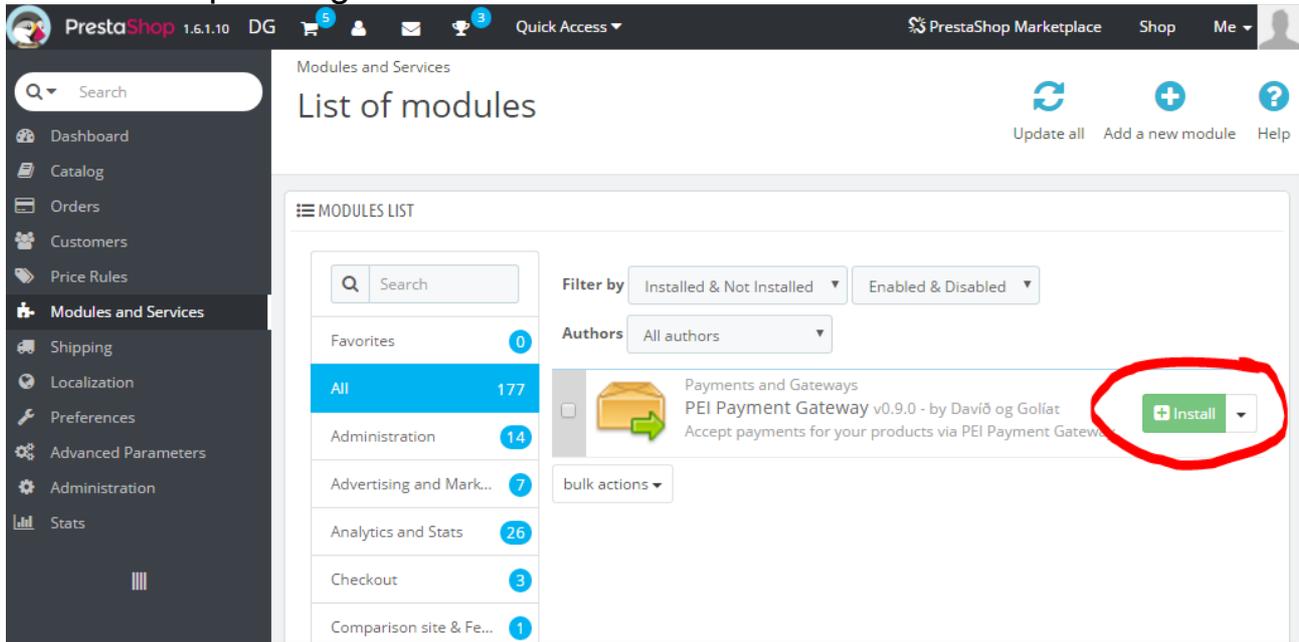

instalation guide

1. in administration panel open 'Modules and Services' then 'Add a new module'

2. choose your downloaded module file (peipayment.zip) and click on 'Upload this module'
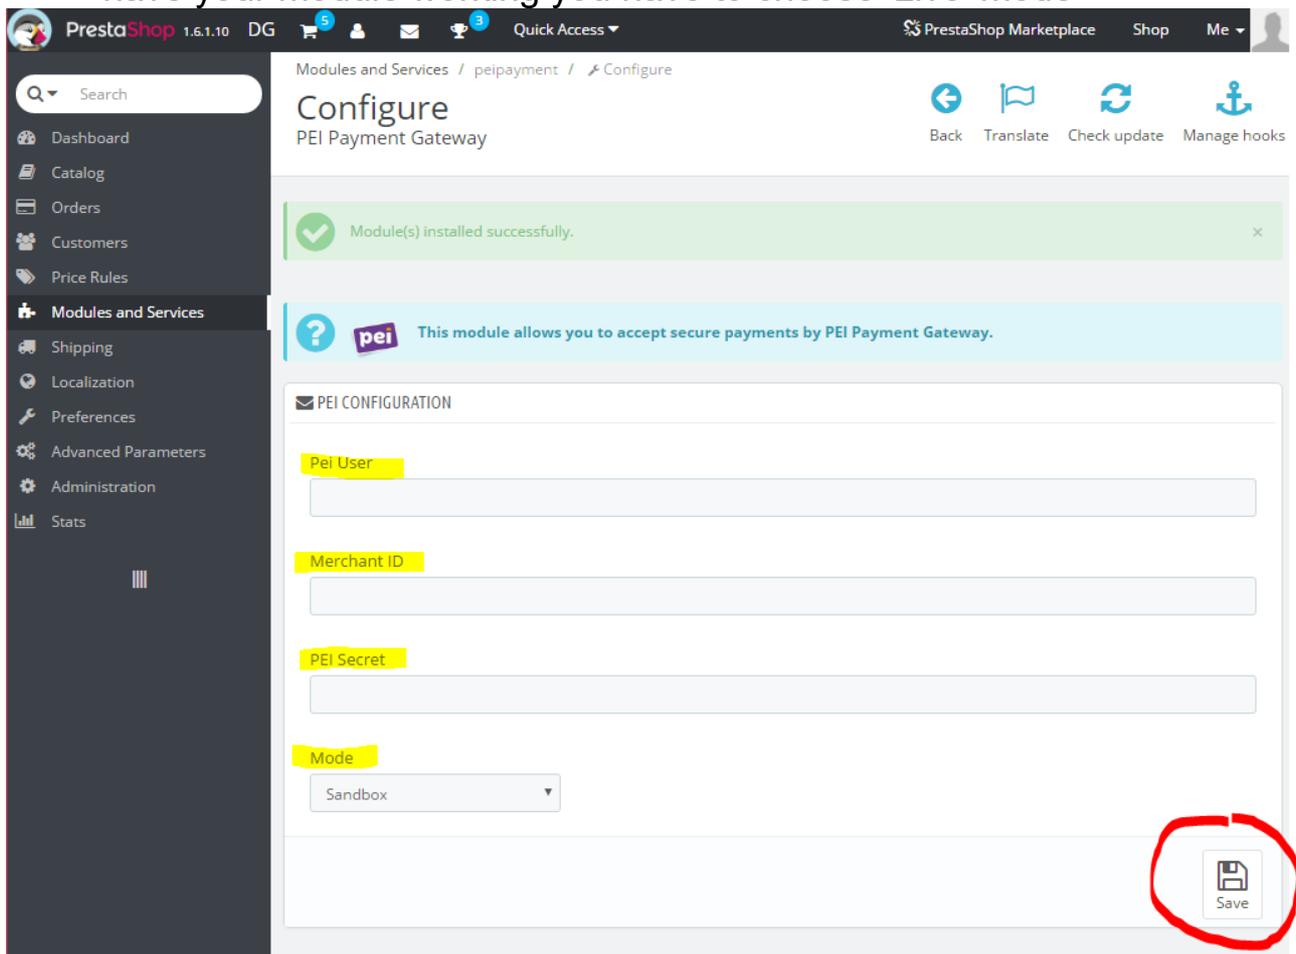

3. after uploading module install it

4. confirm

5. click configure

6. fill out configuration form with data you obtained from your Pei merchant account and save. Remember mode 'sandbox' is only for testing, to have your module working you have to choose 'Live' mode

7. your Pei payment module is instaled

Remember, module works only when costumer choose to pay with Icelandic króna, so currency must be set in shop settings correctly:
- Currency name: Icelandic króna
- ISO code: ISK *(uppercase)*
- Numeric ISO code: 352
- Symbol: ISK

this version of the module works with PrestaShop 1.5 and 1.6
